

SECURE. PROVEN. FLEXIBLE.

EUROPEAN BILL ACCEPTOR (EBA-3X SERIES)

The EBA-3x Series is the default bill validator in the central European markets because of its excellent balance of performance, security and cost. The EBA-3x Series is a proven high security acceptor with the best anti-stringing technology in its class. Its unique design means it is perfect for a wide range of uses, such as AWP, vending and parking machines. The EBA is the perfect solution because its high security and reliability result in a low cost of ownership.

Try it today, and you'll understand why customers everywhere love the EBA.
